

Developing the role of the science subject leader

Ofsted have highlighted the importance of science as a core primary subject.

If you're looking for ways to improve science teaching in your school then good subject leadership is where you should start.

The course

Investigate a range of ways to audit and lead science teaching, develop your role as subject leader and identify new ways to help your pupils to explore and understand the world around them.

Outcomes

You'll benefit from working with other subject leaders to become confident in setting and managing processes for leading science effectively and to lead change in your school to support delivery of the new primary curriculum.

"I feel more confident in my role and understand the first steps I can take towards being a successful science lead."

Nick Stafford, 2016 participant

Date: Friday January 14th OR Friday June 10th

10am – 4pm (sign in from 9:30am)

Location: Harris Academy St John's Wood

NW8 0NL

Pricing: State:

£185 + VAT
